

TECHNICAL DATA SHEET

Product Name

Everest Canvas 385gsm

Product Description

A Poly-cotton canvas base with a glossy surface. A high white point, traditional texture and crack resistance make it excellent for stretching and framing.

Excellent image sharpness, large colour gamut and high-quality cotton-polyester fiber mix. Perfect stretching and framing performance, high contrast reproduction, water resistant with pigmented inks, universal compatibility and instant dry.

Features

- **Gloss Surface**
- **White base**
- **Acid Free**
- **Poly-Cotton Mix**
- **High D-Max**
- **Wide Colour Gamut**
- **Archival**
- **Scratch Resistant**

Suggested Applications

- Fine Art and photographic reproduction
- Banners
- POS displays
- Indoor decoration

Paper Handling

- Fine Art papers are fragile and need to be handled with care. Try not to touch the surface of the paper.
- Glossy papers will mark more easily with grease from your fingertips.
- Leave papers open to the air to fully dry for a few hours after printing, (24 hours are recommended) and avoid stacking on top of each other straight away.

Storage and Conditions of Use

- The storage of all papers should take place in a recommended climate of 15-25°C, relative humidity of 40 - 60% and out of direct sunlight.
- Do not exceed temperatures of 82°C (180°F) when dry mounting.
- Return unused paper to the original box and store flat. If storing the paper outside the original box, only use archival packaging.
