KAISER[®]
FOTOTECHNIK

Many two-dimensional originals and small objects require a special set-up for capturing the image: The camera should look vertically down at the subject. In many cases an accurate, repeatable alignment is indispensable. This can be achieved by using special camera stands – known as copy stands in the "world of photography".

Stand and lighting equipment together with a suitable camera represent a complete solution for these image capturing jobs. The Kaiser range of camera stands and lighting equipment is organized in "system families", within which the individual components are coordinated to harmonize with each other.

When choosing a "suitable" lighting system, you have to take a variety of issues into consideration: dimensions, condition and reflective properties of the subject to be captured as well as the type of camera used and the exposure parameters.

Accessories specially designed for image capturing tasks is often indispensable for efficient working or at least helpful.

In addition various camera accessory gear and general photographic tools can be used.

R1 System

High flexibility and extraordinary versatility are the outstanding features of the R1 system. A vast range of components and accessories lets you even cope with special tasks.

Page 3

Vertical Stand

This special copy stand for industrial applications features very particular properties.

Page 8

Copylizer

This universal "image capturing tool" comprises a complete reflected/transmitted-light/stand combination.

Page 9

RD System

This professional system offers high stability at still compact dimensions and is also available with a motorized height adjustment.

Page 12

rePRO System

This system is uncompromisingly designed for heavy loads and outstanding stability and meets all professional requirements in image capturing. It provides the necessary stability especially for high-resolution medium format cameras, micro scanning systems, optical bench view cameras and TV cameras.

Page 16

Wolfenbüttel Book Reflector 45N

This copy stand is specially designed for digital reproduction of damageable historic books and documents with critical condition, especially for books that cannot be opened for more than 45°.

Page 22

R2 System

A "amateur" system, but also suitable for professional applications using low weight cameras, and that is also available as a mobile version.

Page 24

reprokid

This unit is ideal for all applications where little space and light weight is the issue. Low cost is a welcomed side effect.

Page 26

KAISER R1

**The Universal, Sophisticated,
Flexible, Versatile, Multi-functional,
Adaptable, Modular System**

- For professional users and dedicated photographers.
- High stability, angular precision and quality workmanship
- Ideal for use with camera systems up to 4 kg/8.8 lbs. total weight.
- Vast range of components and accessories.
- Units can be adapted to individual requirements.
- Base boards of various sizes, columns of different height, camera arms with a variety of adjustment options.
- Lighting units with various light sources and housings, working at different power levels, with various mounting and adjustment options.

This system – optimized for adaptability – is completely modularized and therefore allows also customized configurations.

Camera Arms

RTX (5522)

- Horizontally adjustable via parallel guides with fine drive
- Mounting plate turns +/- 90°
- Spirit level
- Camera mounts on front/rear

RT 1 (5521)

- Horizontally adjustable via parallel guides
- Two mounting positions for horizontal and vertical format
- Arm tiltable

RTP (5524)

- Horizontally adjustable via parallel guides
- Camera positioning device

RA 1 (5520)

- Camera positioning device

RA 101 (5523)

- For camera with greater distance between tripod mount and optical axis
- Camera positioning device

RLR (5539)

- Camera platform can be shifted horizontally to left or right
- Adjustable stops for end position
- Camera can be mounted for horiz. or vertical formats

2CC (5540)

- Two camera platforms can be shifted horizontally to left or right
- For carrying two cameras simultaneously, e.g. for comparison shots

Extension Arm (4455)

Extends the holding arm of the column by 8 cm / 3.1 in.

Wall Mount

For R1 system columns. Top section adjustable for vertical position. Lower part with base and spirit level. Distance between wall and holding arm front (no camera arm attached): approx. 25 cm / 9.8 in.

4412

Table Frame

For all stands and base boards of the R1 system. Height-adjustable feet. Slide-in compartment for control box for lighting units.

5508

WxHxD: 58 x 51 x 60 cm (22.8 x 20.1 x 23.6 in.)

75H Base Stand

For rePRO, RD and R1 system columns, base board 5616 or trans-illuminator 5617.

88 x 75 x 78 cm (34.6 x 29.5 x 30.7 in.)

5618

4427

Column Base

For mounting an R1 column on a 75H base stand, copy table, on a 5630 table frame or on table and work plates.

Extraneous Light Protector

For R1 and Copylizer systems. Light-tight tent made of black, teflon-coated fabric. Front zipper.

Holding support 85 x 80 cm (33.5 x 31.5 in.) fits on 1 m (39.4 in.) and 1.2 m (47.2 in.) columns.

5549

Table Frame

92 x 31 x 68 cm (36.2 x 12.2 x 26.8 in.), see also page 20

c	76 cm / 30 in.	76 cm / 30 in.	76 cm / 30 in.

Thermo-Management

The thermo-management ensures that the adjusted brightness as well as the color temperature always remain constant, regardless of the room and unit temperature and thus absolutely reproducible results can be achieved.

Without thermo-management, both brightness and color temperature would change slightly as the temperature changes. For example, when the LEDs heat up during operation (because light-emitting diodes convert a part of the input energy into heat, just like other light sources) or because the ambient temperature is normally not always constant.

This thermo-management includes both **sensor-controlled temperature monitoring with dynamic compensation control** and **elaborate passive cooling** via LED board and aluminum housing.

KAISER Vertical Stand

The Special Copy Stand

Some working environments and applications require primarily one thing: robustness. Testing stations in manufacturing, design and quality assurance in industrial production, special climatic conditions or the need to adapt additional equipment sometimes require device properties that exceed the usual standards. The Vertical Stand is a unit that can cope with these requirements. It is kind of a "Heavy Metal" version of the R1 system stand with a 8 mm thick metal base board, a suitable column and camera arm.

Made in Germany

	with 4407	with 4475
a	83 cm (32.7 in.)	103 cm (40.6 in.)
b	13 cm (5.1 in.)	13 cm (5.1 in.)
c	38 cm (15 in.)	38 cm (15 in.)
M	4 kg (8.8 lbs.)	4 kg (8.8 lbs.)

Metal Base Plate
5504

Dark gray finished steel plate with die-cast base for 4407, 4475 or other R1 system columns. Receptacle for accessories (e.g. 5040) with 16 mm (0.6 in.) standard spigot, mounts on right or left side. Height adjustable feet. Dimensions (WxD): 45 x 45 cm (17.7 x 17.7 in.), thickness of plate: 8 mm (0.3 in.), weight: approx. 13.5 kg (29.7 lbs.)

Column
4407 / 4475

Wide and extremely vibration-resistant column of aluminium tubing with dull black anodized surface and cm and inch scales. With mount and fastening mechanism for camera arms. Height adjustment by hand crank and gear rack, additional 1:6 fine drive. Weight compensation by built-in roller spring. Locking screw for fixing height adjustment. Cross section approx. 70 x 35 mm (2.8 x 1.4 in.).
4407: Height 80 cm (31.5 in.)
4475: Height 100 cm (39.4 in.)
Suitable camera arms: RA 101 (5523) or other R1 system camera arms (see page 5).

PL 24Vario LED Desktop Light (3482)

Panel light with 240 SMD LEDs, variable color temperature 3200 - 5600 Kelvin, CRI: 97, angle of radiation 80°, continuously dimmable. Specially structured diffuser screen. Mounting on height-adjustable desktop stand (incl.) or on stands and fixtures with 16 mm (5/8") standard spigot, such as Magic Arm 5040.

RB 5020 DS2 LED Lighting Unit (5467)

Two panel lights with 105 SMD LEDs each, approx. 6000 Kelvin, CRI > 93, angle of radiation 110°, separately dimmable or in conjunction. Lights can be tilted, swiveled and adjusted in height. Vertical arms 50 cm (19.7 in.), edge dimension 16 mm, with clamp base, tiltable.

RA 101 Camera Arm
5523

See page 5 for description.

"Magic Arm" Hinged Bracket
5040

See page 23 for description.

KAISER

”exe.cutive LED“ Copylizer

The Complete Reflected/Transmitted-Light/Stand Combination

- For photographic capturing and documentation of subjects of any kind, including three-dimensional subjects.
- For capturing documents, logos, symbols, photos and drawings for further processing in DTP systems or for further use in video conferences or networks.
- For reproducing and documenting X-ray films, large format slides, silhouetted subjects and transparent objects.
- As a video presenter in schools and universities, at training courses and meetings, in advertising, industry, medical imaging and for use by public authorities.
- For integration into evaluation systems for quality testing and monitoring in industry labs.

Everywhere in industry and administration, in medicine, science and research, in the entire area of communication and information technologies, where photos and other originals have to be copied, catalogued, archived or transformed, there is one thing you need apart from the camera system of your own choice: a Kaiser Copylizer. It provides reliable camera mounting and suitable lighting when reproducing and documenting.

The stand can be used either with or without dedicated side lighting units, for which the stand is equipped with suitable mounting provisions.

Thermo-Management

The thermo-management ensures that the adjusted brightness as well as the color temperature always remain constant, regardless of the room and unit temperature and thus absolutely reproducible results can be achieved.

Without thermo-management, both brightness and color temperature would change slightly as the temperature changes. For example, when the LEDs heat up during operation (because light-emitting diodes convert a part of the input energy into heat, just like other light sources) or because the ambient temperature is normally not always constant.

This thermo-management includes both **sensor-controlled temperature monitoring with dynamic compensation control** and **elaborate passive cooling** via LED board and aluminum housing.

KAISER rePRO

The System for Highest Professional Requirements

When you need a maximum in stability, solidity and load capacity, the Kaiser rePRO system is the right choice. This system is not only at home in photo and video studios, but also in technology, forensics and science, education, research and media production. Because of its extremely high level of stability the rePRO system is especially suitable to capture large format reflective or transparent originals. This modular-designed stand is available in several versions: with a table with fixed working height, with a motorized height-adjustable table and without a table. According to the job, the table with fixed working height can be equipped with a large base plate or with a trans-illuminator for translucent originals.

The positioning of the camera level is motorized throughout the entire column height either by cable remote control or, with some versions, computerized via PC/laptop using the Kaiser autoDrive program. With this program, height positions can be stored and retrieved with approx. 1/100 millimeter repeat accuracy and the brightness of the RB 570 AX LED lighting unit can be controlled.

The version with height-adjustable table has a motorized table and a motorized camera carrier that can be moved along the complete height of the column. This offers enormous flexibility with respect to shooting distance and possible working positions. The version without a table provides for a different sort of flexibility, because it can be combined with various existing working planes.

For precise positioning of the optical axis of the camera, the camera carrier can be shifted horizontally via parallel guides with gear rack and, in addition, can be tilted by $\pm 90^\circ$ with high-precision fine adjustment. The column, made of a multi-section special extrusion, is mounted to a firmly attached cast base and is extremely sturdy and vibration-resistant.

These professional work stations - equipped with a suitable camera system of your choice and one of the RB 570 AX or RB 100D lighting units - offer optimum conditions for sophisticated image capturing tasks.

KAISER *autoDrive*

Copy Stands with Automatic Height Adjustment

With the RSP 1.5 autoDrive and RSP Xtra autoDrive copy stands height is adjusted via a **cable remote control** that can easily store four height positions and retrieve them at the touch of a button. As an alternative you may install the **Kaiser autoDrive program** on your PC or laptop for height adjustment and brightness control of the RB 570 AX LED lighting unit.

Kaiser autoDrive Control Program

- Application: computer-controlled height adjustment for certain copy stands and columns, brightness control for certain LED lighting units
- Direct access height adjustment via scroll bar, different speed rates
- Pre-selected height adjustment plus preset brightness level by selecting a predefined project (target position, description of the project and, if needed, the brightness settings)
- 1/100 millimeter repeat accuracy
- Separate brightness control of left and right light
- Largely intuitive user interface, clearly laid out menus and explanatory texts (can be switched off)
- Projects can be saved, retrieved, newly created, copied, edited and deleted. Max. 500 projects, list can be sorted
- Multiple input fields for project description, e.g. camera, lens, focal length, template size. For reproducible results
- Event log to display drive status, etc.

- Position adjustment in millimeters, inches or pulses
- Language selectable: German or English
- Emergency stop via program, space bar on the computer keyboard or cable remote control
- System requirements: Win 2000, Win XP, Win 7, Win 8.1, Win 10, Win 11

Trans-Illuminator

For insertion into the Table Frame (5615) and the Base Stand 75H (5618)

Working area:
80 x 60 cm / 31.5 x 23.6 in.

Illuminated area:
48 x 43 cm / 18.9 x 16.9 in.

Glass plate

Lamps: 4 x 55 W compact fluorescent lamps

Color temperature: 5400 K, CRI=90-100

Average service life: 8,000 hours

Continuously dimmable

Fan cooling, no thermal load on originals.

Luminance: 6,700 cd/m²

Uniformity: 85%

High-frequency operation

Base Board

For insertion into the Table Frame (5615) and the Base Stand 75H (5618)

Dimensions (WxD): 80 x 60 cm / 31.5 x 23.6 in.

Thickness: 38 mm / 1.5 in.

Specification: High-compressed wooden material, all-side plastic-laminated, printed grid and cm/inch scales

Includes slide-in carrier for control box of optional lighting unit

Table Frame

For columns 5612 and 5613. Incl. base. Sturdy steel tube construction, demountable.

With stacking tray 79.5 x 49 cm (31.3 x 19.3 in.)

Dimensions without base (WxHxD): 88 x 66 x 78 cm (34.6 x 26 x 30.7 in.)

Required floor space (WxD): 88 x 104 cm (34.6 x 41 in.)

Wall Mount

For mounting a RSP column (e.g. 5612, 5613) to a wall. Lower part with base, spirit level and compartment for power-supply.

Top section adjustable.

Distance wall - column: approx. 35 cm (13.8 in.)

75H Base Stand

Height approx. 75 cm (29.5 in.), allows convenient working in a sitting or standing position.

Welded tubular steel construction, sturdy and heavy-duty.

Base 5610 is required for mounting a column 5612 or 5613.

88 x 75 x 78 cm (34.6 x 29.5 x 30.7 in.)

- For books with open sizes up to 73 x 45 cm (28.7 x 17.7 in.) and a thickness of 15 cm (5.9 in.)
- Pressure plate made of 6 mm thick float glass
- Antireflection coating on both sides
- Lockable
- Locates automatically in opening position
- Platforms 30x45 cm (11.8x17.7 in.) each
- With foam-padding
- Adjustable space for spines of different sizes
- Height of platforms adjustable
- Automatic pressure control
- Quick pressure release and subsequent resetting with previous pressure
- Fold-out support bracket to hold large-sized books
- Dimensions (WxHxD): 86 x 55.5 x 65 cm (33.9 x 21.9 x 25.6 in.)
- Weight: approx. 57 kg (126 lbs.)

- For 5631 Book Cradle
- Sturdy steel tube construction
- Matt-grey, plastic-laminated base board 86 x 3.2 x 60 cm (33.9 x 1.3 x 23.6 in.)
- Can be equipped with casters or height-adjustable feet
- Also suitable as copy table for RSP Xtra (5711) and RSP Xtra autoDrive (5727) copy stands
- R1 and RD system columns can be mounted via base (optional, 4427 resp. 5625)
- Dimensions (WxD): 92 x 68 cm (36.2 x 26.8 in.)
- Height: 31 cm (12.2 in.) with casters, 25 cm (9.8 in.) with feet

- For RSP Xtra (5711) and RSP Xtra autoDrive (5727) copy stands
- Sturdy steel tube construction, lower rods with additional track rollers for sliding on the RSP Xtra (autoDrive) copy stand base
- Matt-grey, plastic-laminated base board 86 x 3.2 x 60 cm (33.9 x 1.3 x 23.6 in.)
- Four casters (two lockable)
- Dimensions (WxHxD): 92 x 49 x 68 cm (36.2 x 19.3 x 26.8 in.)
- Also suitable as a table for Book Cradle 5631
- R1 and RD system columns can be mounted via base (optional, 4427 resp. 5625)

RSP Xtra/2motion Columns

For wall fastening with wall mount 5614. For specifications see description of respective copy stands (page 19). Comes without column foot.

5709: RSP Xtra Column, with camera carrier and cable remote control

5725: RSP Xtra autoDrive Column, with camera carrier, cable remote control, control unit and control program

5708: RSP 2motion Column, with camera carrier, cable remote control and base board

Magnetic Subject Holders

2 x 294 mm (11.6 in.) and 2 x 375 mm (14.8 in.) long, e.g. for base board of RSP 2motion.

5717

Close-Up-Adapter

Bracket to reduce the minimum camera-to-base board distance. Mounts on the camera carrier.

5627

rePRO Base

For RSP columns. Cast aluminum. Built-in spirit level.

5610

rePRO Adapter

For use of R1 system camera arms with RSP or RSD/RD copy stands / columns.

4421

rePRO Wall Mount

For mounting a RSP column (e.g. 5708, 5709, 5725) to a wall.

Lower part with base, spirit level and compartment for power supply.

Top section adjustable.

Distance wall - column: approx. 35 cm (13.8 in.)

5614

Foot Pedal Shutter Release

For triggering a camera with the foot, e.g. when the hands are used for other activities.

Dimensions foot switch: 135 x 71 x 45 mm (5.3 x 2.8 x 1.8 in.)

Cable length: 1.80 m (5.9 ft.)

Weight: 300 g (10.6 oz.)

Detailed description see page 29.

Special Copy Stand + Components

Wolfenbüttel Book Reflector 45N

5780

5780 with 5781 and 5608

For digital reproduction of damageable historic books and documents with critical condition, especially for books that cannot be opened for more than 45°. All movements are done manually for maximum protection of the book. For books with page dimensions up to 45 x 45 cm (17.5 x 17.5 in.) and a thickness of 20 cm (7.9 in.). Covered area close to fold: approx. 4 mm.

Provisions:

- horizontally movable table
- padded book spine rest
- padded book cover rests, individually horizontally movable
- adjustment of the inclination of the side rests
- vertically movable mirror wedge with counter balance mounting and brake via bowden wire
- separate camera stand, camera carrier with 22.5° inclination and 40 cm (15 in.) travelling distance
- adjustable holding arm for camera

Functional principle:

The opened book is placed in a V-shaped book cradle. A V-shaped wedge with a glass plate on one side and a mirror on the opposite side is moved manually into the book and is locked into position. The two side rests that are opened at an angle of a bit more than 45° are manually moved to the book cover at 45°. The glass plate of the wedge flattens the page that has to be reproduced. The mirror image is now digitally photographed or scanned. A suitable software will now convert the digital image into a true sided image.

Basic table: 88 x 75 x 78 cm
(34.6 x 29.5 x 30.7 in.) (WxHxD)

Total height of book reflector: 207 cm (81.5 in.)

Total height of camera stand: 200 cm (78.7 in.)

Made in Germany

The Wolfenbüttel Book Reflector is a public private partnership development of Kaiser Fototechnik, Image Engineering Cologne and the Herzog-August Library of Wolfenbüttel, Germany.

	Adjustment Stop	Lighting Unit
Code number	5608	5781
	For parallel alignment of the camera stand. Distance selectable.	<ul style="list-style-type: none"> • Panel light with 272 SMD LEDs, 5600 Kelvin, CRI = 96, thermo-management, light emitting area 58 x 16.5 cm (22.8 x 6.5 in.). Sturdy aluminum housing, can be swiveled, adjusted in height and shifted horizontally. Removable soft screen. • Vertical arm 142 cm (55.9 in.), edge dimension 25 mm (1 in.), with clamp holder, can be tilted.
		

Accessories

Copy Plate
5901

- For positioning and fixing flat originals
- Metal plate with non-slip bottom
- Matt gray surface with 18 % reflection
- Printed grid lines and scales
- Four permanent magnetic subject holders
- Size of printed grid area: 46 x 34 cm / 18.1 x 13.4 in.
- Total size 50 x 38 cm / 19.7 x 15 in., height: 10 mm / 0.4 in.
- Wall mounting is possible

Document Stage
5903

- Suitable for documents and originals up to 210 x 148 mm (8.3 x 5.8 in.)
- Two adjustable stop rails
- Four fixing clamps can be used in various positions
- Platform on ball head can be swivelled and tilted in all directions and pivots to 90°
- Height adjustment up to 40 mm/1.5 in.
- Spirit levels in platform and base
- Four individually adjustable feet
- Dimensions (WxHxD): 265 x 209-249 x 210 mm / 10.4 x 8.2-9.8 x 8.3 in.

Book Holders
5771/5774

- Basic holding device for opened books of various heights ①
- Base plate with non-slip bottom
- Folding glass pressure plate, hinges variable in height up to 145 mm (5.7 in.) depending on height of book, height can be locked
- Preformed foam blocks for height compensation ②

5771 Book Holder 44/41:
With color-neutral crystal glass pressure plate. For formats up to: 44 x 41 cm (17.3 x 16.1 in.), dimensions: 53 x 22.5 x 44.5 cm (20.9 x 8.9 x 17.5 in.)

5774 Book Holder 69/50 AR:
With anti-reflective glass pressure plate. For formats up to: 69 x 50 cm (27.2 x 19.7 in.) ③, dimensions: 77 x 22.5 x 55.5 cm (30.3 x 8.9 x 21.9 in.)

Macro Focusing Stage
5535

For precise focusing.
With quick release connector (Arca-Swiss compatible) and fine adjustment handle.

Guide rail with three tripod bushes 1/4" and 3/8" each and dovetail guide (Arca-Swiss compatible).

Precision helical toothed rack. Adjustment travel 125 mm (4.9 in.), millimeter scale, slider with locking screw.

High quality aluminum section.

Square quick release plate, connection thread 1/4".

2 focusing stages 5535 can be combined to a cross-slide system.

Accessory: additional quick release plate (5536).

Lamp Arms
5560

Adjustable in height and angle. Clamp attachment on boards up to 48 mm (1.9 in.). Edge dimension: 16 mm (0.6 in.). Complete set of 2 for both sides.

Flash/Light Fixture
5571

For fastening flashguns or lights with standard accessory foot or 1/4" mounting thread on lamp arms of 16 mm/0.6 in. edge dimensions. 1 piece.

"Magic Arm" Hinged Brackets
5055-56, 5040

To mount and individually align cameras, lights and accessories. With ball-and-socket joints at both ends. Central locking disk for all three joints. Sturdy metal design.

5055-56: 1/4" camera connection thread. Includes comprehensive adapter set. Max. load 1 kg (2.2 lbs.) in horizontal position. Total length approx. 18 cm (7.1 in.) (5055, Magic Arm mini 1) resp. 28 cm (11 in.) (5056, Magic Arm mini 2).

5040: 16 mm standard spigot on both ball-and-socket joints with 1/4" and 3/8" internal thread. Detachable mounting platform with umbrella mount. Max. load in horizontal position approx. 3 kg (6.6 lbs.). Total length approx. 53 cm (20.9 in.).

Mounting e.g. to Vertical Stand.

5056 with LED light

KAISER R2

**Compact,
Flexible, Stable**

Copy stands and lighting units of the R2 family are lighter versions of the R1 system. Designed for light-weight cameras, their dimensions and stability is ideal for copy work.

The stands are excellent for compact cameras and lightweight system cameras, but also suitable for industrial and professional applications.

There is also a range of suitable lighting units: with recent LED light or with high-frequency fluorescents.

■ Attachment	With clamp holders on boards up to 48 mm / 1.9 in. thick.	
■ Tilt/angle adjustable	●	●
■ Height continuously adjustable	●	●
■ Lights can be swiveled	●	●

Image Capturing Set R2N CP

Comprises RS 2 CP (5301) copy stand and RB 218N HF (5464) lighting unit.

5301 and 5304 in padded carrying case (67 x 47 x 23 cm / 26.4 x 18.5 x 9.1 in.) with handle and shoulder strap.

Made in Germany

KAISER "reprokid"

- the "Desktop"-Stand

"reprokid" is a small, lightweight, compact stand for small, lightweight, compact cameras and smartphones.

This unit is "good enough" for wherever the requirement is for minimum space and light weight.

This stand is available with lighting unit for photofloods or without surface lighting unit, then for use with desktop lights.

Base board: Matt gray, 32 x 38 cm (12.6 x 15 in.), 19 mm (0.75 in.) thick.

Column: 59 cm (23.2 in.) high, with cm and inch scales, height-adjustable camera arm with locking knob, 1/4" connecting thread.

Base board: Matt gray, 32 x 38 cm (12.6 x 15 in.), 19 mm (0.75 in.) thick.

Column: 59 cm (23.2 in.) high, with cm and inch scales, height-adjustable camera arm with locking knob, 1/4" connecting thread.

Lighting unit: Round rods, with two tiltable E27 lamp sockets for photofloods 2 x 250 W max. (not included).

With two panel lights: each with 240 SMD LEDs, variable color temperature 3200 - 5600 Kelvin, CRI: 97, angle of radiation: 80°, continuously dimmable, panel size: 14.7 x 21.4 cm (5.8 x 8.4 in.), specially structured diffuser screen, swivel joint. With height adjustable desktop stands with round base for stable stand with low space requirement.

Smartphone Mount

Rubberized quick clamp with 55 - 90 mm (2.2 - 3.5 in.) span width.

Three 1/4" tripod threads for universal application.
